LIVE IN ATHENS

PT's first gig in Athens, at the Rodon Club, on 23rd December was an amazing event. The gig was a sell-out and a packed audience of over 1,500 was treated to a show lasting nearly two hours as the band let rip with much improvisation in their two hour set. We have been invited back to play at a summer music festival. More details as soon as we get them.

COMPILATIONS & OTHER NOTES

The double CD compilation, "MUSIC FOR COFFEESHOPS" featuring a whole host of new psychedelic sounds is now released on Peaceville records through Music For Nations (Distributed by Pinnacle). An edit of "MOONLOOP" features on the set which is currently available through Delerium mail order. If you haven't got a catalogue, send an SAE/IRC to their address at the bottom of the page.

Meanwhile, US label Cleopatra Records "SPACE DAZE Vol. 2" which features "BURNING SKY Pt.2" is still to be released, but will be available by the late Spring.

Fans of The Tree may also be interested in obtaining Richard Barbieri and Steve Jansen's CD album, "STONE TO FLESH". A very textural piece, it bears all the hallmarks of Barbieri's atmospheric synth and keyboard work with guest appearances by fellow Porcupine's, Steven Wilson and Colin Edwin. This too is available from Delerium mail order (address below)
