

PORCUPINE TREE

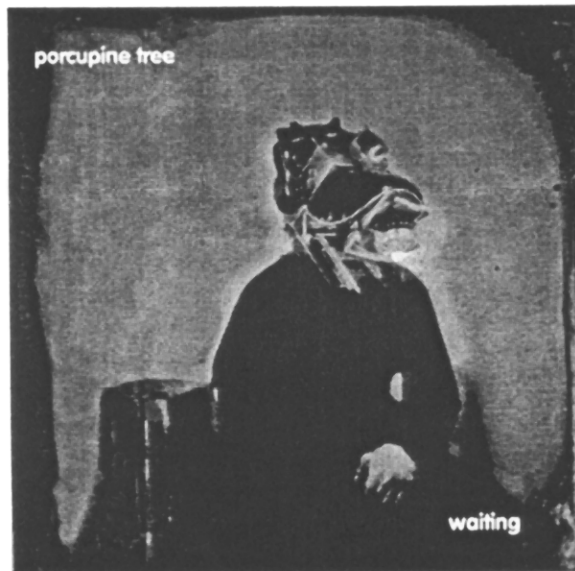

TRANSMISSION 4 - SPRING 1996

NEW SINGLE & ALBUM

PT have spent much of the Christmas period writing and recording a new single and album for release later in the year. The single, "**Waiting**", will be available on Delerium DELEC CDS/EP 049, and is scheduled for release on APRIL 29th. The track will be familiar to some of you as a song performed live on their October '95 tour. The CD will have "**Waiting - Phases 1 & 2**" and "**The Sound of No-One Listening**", whilst the 12" version will be backed by "**Colourflow In Mind**" and "**Fuse The Sun**".

Like "**Waiting**", the album, "**Signify**", is housed in a stunning sleeve designed by US computer artist Jon Blackford and will be released in August this year. More details as and when...

One thing to remember though - due to commitments with our distributor, and in an effort to get more shops to stock Porcupine Tree, the single and album won't be available by mail order from Delerium, so you'll have to order from your local record store. In the meantime, here's an idea of what the cover will look like...
