

P O R C U P I N E T R E E

**SWIMMING IN THE CIRCUIT.
SOMEBODY HAS EXPIRED.
THIS WILL BE THE FUTURE.
EVERY HOME IS WIRED.**

Last year, **Porcupine Tree** made their US debut with the "legendary" ambient, psychedelic-rock masterpiece, *The Sky Moves Sideways*. The album helped bridge the gap between the space rock era of the past and the experimental "techno" age of today. *The Sky Moves Sideways* was heralded as the "ambient generation's answer to the Dark Side Of The Moon" and firmly rooted **Porcupine Tree** among the ranks of **King Crimson**, Meddle-era **Pink Floyd**, **Alan Parson's Project**, **Hawkwind**, and **The Orb**.

However, that could not prepare you for what they plan to unleash upon the unsuspecting world. On October 31st, 1996 - Halloween - **Porcupine Tree** release *Signify*, the eagerly anticipated follow-up to *The Sky Moves Sideways*. Deciding to take a great leap forward, *Signify*, is a bold departure from the psychedelia and ambience of the prior album. The album is a full sonic assault that captures the intensity of **Porcupine Tree's** live shows. The epic 12 song album is subtle, dark, and brooding, yet, loud and aggressive. However, despite attempts at classification, they have managed to defy genres while successfully absorbing and blending elements of progressive rock, Krautrock, avant jazz, and ambient electronica to create a musical landscape that is cerebral, compulsively seductive, and refreshing!

Somewhere between King Crimson, Hawkwind, Neu!, Meddle-era Pink Floyd, Rush and The Orb lies **Porcupine Tree** who are continually carving their own individual place in the music history books

Signify, the new album by **Porcupine Tree** available on **C&S Records'** compact discs (CS-8533) from October 31st. Featuring: "Waiting," "Every Home Is Wired," "Sever," and "Dark Matter."

born. live. die. SIGNIFY.

If you are interested in ordering this album please send a check or money order to:
C&S Records, Attn: Mallorder, 122 East 25th Street. 5th Fl. New York, NY 10010

If you would like to receive a catalog containing this and all C&S Records' product, please send a S.A.S.E. to the above address
